PROFESSIONAL SUMMARY

Innovative and performance-driven Full Stack Developer & AI Engineer with hands-on experience building scalable web applications, AI-powered workflows, and automation systems across the UAE. Skilled in developing intelligent assistants, RAG pipelines, and multi-agent systems for e-commerce, marketing automation, and customer engagement. Strong background in modern web technologies, API integrations, cloud platforms, UI/UX design, and IT technical support — consistently delivering high-quality solutions that drive business growth.

PROFESSIONAL EXPERIENCE

Modern Web Developer / AI & Automation

Tursian (Luxury Skincare) Inc., Dubai, UAE

2026 – Present

- Built and maintained Shopify-based e-commerce experiences with optimized UX, performance, and conversion
- Designed AI-powered workflows for marketing operations: SEO content, product descriptions, email/social content, campaign planning, and reporting
- Developed AI assistant and copilot concepts for product catalogue support, customer guidance, content generation, and internal knowledge retrieval
- Integrated AI models, APIs, and automation pipelines to reduce manual overhead and accelerate campaign delivery
- Collaborated with stakeholders to identify automation opportunities and implement scalable solutions

Full Stack Web Developer & Product Designer

Flowtronix (FT) LLC, Abu Dhabi, UAE

2023 – 2025

- Designed and developed 13+ brand websites using WordPress, Shopify, and PHP — improving UX, performance, and SEO visibility
- Created client artworks, product designs, wireframes, datasheets, brochures, and brand visuals aligned with corporate identity
- Managed e-commerce content, digital campaigns, analytics tracking, and coordinated with marketing and technical teams
- Handled End User IT Technical Support Help Desk functions and day-to-day operations
- Installed, configured, updated, and maintained server software; responsible for backups, new builds, and hardware troubleshooting

Web Developer / Digital Marketing & SEO Specialist

Robotics and Innovation (FZE), Sharjah, UAE

2022 – 2023

- Developed responsive websites and product pages using WordPress, Shopify, and PHP
- Handled e-commerce listings, digital marketing, customer support, and technical consultation for electronics and robotics products
- Developed and sold Arduino, Raspberry Pi, and robotics projects — managing sourcing, product setup, and technical demonstrations
- Handled IT Technical Support Help Desk functions and day-to-day operations

Web Designer — Frontend (Internship)

Nuwara Online Trade, Sri Lanka

2020 – 2021

- Developed responsive websites and UI components for an online retail business
- Assisted in e-commerce setup, SEO improvements, digital marketing, and content management
